

Lab-Program - 1.

Q) Simple PDU from Source to destination using hub and switch as connecting devices?

- ① take 3 PCs and connect all three to 1 hub
- ② Setup the IP address for the end devices (PC)
- ③ Add PDU to each device and ~~run~~ run simulation

→ Message sent from PC0 is received by HUB and it is further sent to PC1 and PC2. These end devices may accept or reject the message.
